SOUND MOTION PICTURE FEA-TURE OF EXHIBIT ARRANG-ED BY LOCAL DEALER

A sound motion picture graphicaly portraying the story of the Ford Motor Company and its widespread activities will be exhibited free of charge in a special Ford exhibit to be feld at Ford Sales and Service, Monday and Tuesday, April 6 and 7. The show will be open to the public from 1:00 until 10:00 o'clock p. m. each day.

The picture, entitled "A Tour Through the Ford Factory," will show the gathering of raw materials, their arrival at the Rouge Plant in Dearborn, Mich., and the numerous interesting stages through which they pass in the process of making Ford cars and trucks. It is, in short, an education in the extent and meaning f modern volume production.

While an unseen voice explains ach scene, the audience is taken on a tour of the plant, through the great blast furnace building where ore is converted into iron; into the hot liquid, into moulds; into the open hearth building where the iron becomes steel and is poured, a white hot liquid, into moulds; into the blooming mill where the steel ingots are made into bars; and into the rolling mill in which the long bars of white hot steel are reduced to definite sizes. Forty kinds of steel, each of a composition to serve a definite purpose, are used in the Ford car and truck.

The picture shows also the manufacture of glass in an endless unbroken strip, a process developed by Ford engineers; the machine shops in which parts for the car are manu-Liverpool Thursday about 11:00 factured; the pressed steel building o'clock a. m. Waldemar Jenson and his crew of vorkmen just finished the job of ecorating the interior of the Rialto theatre, after working there nearly five weeks. The writer visited the place and found it surpassing in beauty and attractiveness his fondest expectations. The decorators did their work well just as we knew they would and Mr. Olson may be proud to again open his wonderful theatre to the public.

The plans and color scheme modified modernistic. Gold, silver, green and tan are the prevailing colors. With the walls of green and tan and woodwork of gold and silver and door panels of dark brown ma-hogany the lobby and foyer are strikingly rich and handsome. Disagree on Proposals.
So many proposals continue to be made calling for expenditure of pub-lic funds that leaders of the Michigan Legislature have threatened to bar introduction of such measures at an early date.

The reaction towards new sources of tax revenue was reflected in the public hearing held on the old age pension legislation now pending. Rep. Charles Haight of Lansing had pro-posed a bill providing a \$2 head tax to raise the approximately \$1,000,-000 necessary to pay the pension. Representative hall was crowded with people from all over the state favoring the pension, but there were few among them able to agree on a financing plan. The mayor of Detroit was emphatically against the head tax and intimated that the plan had been suggested as an easy way to kill the old age pension. Al representative of a fraternal order that has advocated such a pension talked for an hour in favor of the legislation, but he was unable to make a suggestion as to how the money should be raised. A labor leader advocated placing the tax against per-sonal property. Legislative leaders (Continued on last page)

When as a babe of two years he rode with his parents in one of a train of 80 covered wagons out of Cobb county, Georgia, into Mississippi, the old Natchez Trace followed by the brave little band was still infested by the swashbuckling rufflans whose bloody outrages gave that era its place in this country's history as "the outlaw years."

Section 21. The state may from time to time borrow money and issue bonds therefor on such terms as shall be provided by law for the purpose of paying or refunding any outstanding bonded indebtedness of the state. Shall article ten of the state constitution be amended by adding a section to be designated as section twenty-one so as to authorize the state to borrow money for the purpose of paying or refunding outstanding bonded indebtedness, and to issue bonds therefor?

Yes.

Referendum on act number 2 (Senate enrolled act number 2) of the Public Acts of 1931, defining the crime of murder 1. in the first degree, and providing that the penalty therefor shall be death by electrocution.

An act to define the crime of murder in the first degree; to prescribe the penalty therefor; to provide for an appeal and procedure thereon; rescribe the necessary regulations to be observed in executing the penalty imposed; to provide for a referendum thereof; and to repeal section of Chapter one hundred fifty-three of the Revised Statutes of eighteen hundred forty-six, being section sixteen thousand seven hundred eight of the Compiled Laws of nineteen hundred twenty-nine.

The People of the State of Michigan enact:

Section 1. All murder which shall be perpetrated by means of poison, lying in wait, or any other kind of wilful, deliberate and premediated killing, or which shall be committed in the perpetration, or attempt to perpetrate any arson, rape, robbery, burgiary, or kidnapping for ranson, or which shall be committed in escaping or attempting to escape from any penal institution of this state, or while being transported to or from such institution, shall be deemed murder in the first degree, and shall be punished by death. Provided.

The age of seventeen years, at the time of the commission of the crime, shall be sentenced to death, but in case of conviction of such person of murder in the first degree, he shall be imprisoned in the State's prison at hard labor for the remainder of his life.

Section 2. If the accused shall plead guilty to an information charging murder in the first degree, the court shall proceed to take sufficient evidence and determine therefrom the degree of the crime which the accused has committed and shall pass sentence accordingly. The court shall also at the same time take evidence of the manner of arrest and as to whether the accused has been placed under duress or fear.

Section 3. Punishment by death shall be inflicted by electrocution. The electrocution shall take place within the walls of the Michigan State Prison at Jackson. Such electrocution shall be by the warden of the Michigan State Prison or by some person deputized by him. It shall be the duty of the warden and the prison commission of the State of Michigan to provide the necessary room and appliances to carry out the execution of sentences to death by electrocution as provided in this act.

Section 4. Whenever any person shall have been brought before the court on a charge of murder in the first degree and shall be found to be financially unable to procure counsel, the court shall, before requiring the accused to plead to the information, appoint a competent attorney to represent said accused person at the arraignment, hearing, trial and in the appeal. The attorney so appointed shall be entitled to receive from the county treasurer on the certificate of the judge that such services have been duly rendered, such an amount as the judge shall, in his discretion deem reasonable compensation for the services performed. All necessary costs and expenses of the hearing, trial and appeal in such cases shall be paid by the county upon the certificate of the judge.

Section 5. In all cases where judgment of conviction of murder in the first degree, either upon a plea of guilty or after trial, has been entered, the complete record of all proceedings, evidence and charge of the court in such cause shall be submitted to the supreme court for review upon the law and the facts, under such procedure as the supreme court shall designate. The supreme court shall, upon the record so submitted, affirm the conviction or reverse the conviction, and grant a new trial.

Section 5-a. Whenever any person shall be convicted of murder in the first degree and sentenced to death, the judge of the court in which such conviction was had and such sentence was pronounced, shall forthwith issue his warrant under the seal of the court, reciting the conviction and sentence and that said conviction is pending in the supreme court under the provisions of section live of this act, directed to the Sheriff of said country, commanding him to transport the person therein named to the Michigan State Prison at Jackson and there deliver such conjected person, and the aforesaid warrant into the custody of the warren of said prison and shall take from the said warden his receipt for such conjected person, which receipt the said sheriff shall return to the office of the clerk of the court where the conviction was had and such sentence was pronounced, together with their return thereon, which receipt and return shall be filed in the office of said clerk and become a part of the records-

Section 6. Whenever any person shall be convicted of murder in the first degree and sentenced to death and his conviction has been affirmed, a judge of the court in which such conviction was had and such sentence was pronounced, shall, after the expiration of two weeks from the date of said affirmance, issue his warrant under the seal of the court, reciting the conviction and sentence and affirmance thereof of the person therein named and directed to the warden of the Michigan State Prison, commanding him to proceed at the time and place named in said sentence, which time shall not be less than sixty or more than ninety days from the date thereof, to execute the sentence of death by electrocution, as provided in this act. Section 7. Immediately upon the issuance of such warrant, the clerk of the court shall, by registered mail, forward the aforesaid warrant to the warden of said prison, who shall upon receipt of said warrant, make return to the clerk of the county where the judgment of death was rendered, showing receipt of said warrant by said warden, which return shall be filed in the office of said clerk and become a part of the records thereof.

Section 8. Upon the receipt of such condemned person by the warden of the Michigan State Prison, said condemned person shall be confined therein until the time for his execution arrives or until reversal of the conviction by the supreme court, and while so confined all persons except the necessary prison officials and attendants shall be denied access to him, except his physicians who may be admitted to see him when, in the judgment of the warden, medical attendance may be necessary for the physical well-being of the said condemned person, and with the further exception that lawyers, relatives, friends and spiritual advisers of the condemned person may be admitted to see and converse with him at all proper times and under such reasonable regulations as may be prescribed by the board of control and warden of the prison.

Section 9. The following persons may be present at the execution of said condemned person and none other: The warden and such persons as may be necessary to assist him in conducting the execution; members of the board of control of said prison; two physicians including the prison physician; the spiritual adviser of the condemned; the chaplain of the prison; not to exceed ten members of the press to be selected by the warden; and such of the relatives and friends of the condemned person, not exceeding ten in number, as he may request to be admitted, in the discretion of

Section 10. If the condemned person shall escape after sentence and before his delivery to the warden as herein provided, and be not rearrested and returned before the time fixed in section five-a for his transportation to the State Prison, then any person may arrest him and return him to the jail of the county in which he was convicted and sentenced and thereupon a judge of the court of such county having jurisdiction, on notice of said arrest and return being given by the sheriff, shall again fix a time for the execution of said sentence as provided in section six hereof and shall forthwith issue a warrant of commitment and direct the transportation of the said condemned person to the Michigan State Prison at Jackson as hereinbefore provided.

Section 11. If the condemned person shall escape after his delivery to the custody of the warden of the Michigan State Prison and be not retaken before the time appointed for his execution, any person may arrest and return him to the Michigan State Prison, whereupon the warden hall certify the fact of his escape and recapture to the court in which he was convicted and sentenced, and a judge of said court shall again fix a time for the execution of said condemned person as provided in section six hereof and thereupon the clerk of said court shall forthwith certify the fixing of said time for such execution to the warden as hereinbefore provided who shall proceed at the time so fixed to execute the condemned person as

Section 12. When the execution of sentence as herein provided is suspended, stayed or respited to a subsequent time, the fact of said suspension, stay or respite shall be noted on the warrant and on the arrival of the time to which execution of said sentence was suspended, stayed or respited the warden shall proceed with the execution of such sentence as herein provided. In the event of the pardon of the condemned person or the commutation of his sentence by the Governor, no execution shall be had. In all cases, when the sentence to death has been executed, the warden shall commutation of his sentence by the Governor, no execution shall be had, in an cases, when the sentence to death has been executed, the warden shall return the warrant of commitment herein required to the clerk of the county in which said conviction was had and sentence was pronounced with a full statement of all his acts and doings thereunder endorsed thereon, which said warrant and return shall be filed by said clerk and become and remain a part of the records of said court and cause. In the event that any condemned person shall die, be pardoned, or his sentence commuted before the time fixed for his execution, the warden shall make report of that fact on the warrant of commitment as herein provided. Such report of casth shall be accompanied by a death certificate signed by two physicians including the prison physician.

Section 13. If a woman who has been sentenced to death as herein provided appears to be pregnant, and the physician of the prison shall certify in writing to the warden that in his opinion such woman is pregnant, the warden shall forthwith give notice of such a fact to the judge of the court in which the conviction and sentence was had and made and also shall deliver a copy of such certificate of such physician to the said judge. Such judge shall thereupon appoint a time at which an inquiry into the fact of such alleged pregnancy shall be made at said prison, and shall forthwith summon three disinterested legally qualified physicians of the State of Michigan to make examination and inquiry concerning the facts of said alleged pregnancy. Notice thereof shall be given to the prosecuting attorney of the county in which the judgment or conviction was rendered stating the time and place of such inquiry. The report of said physicians shall be in writing and under oath, and shall be filed in the office of the court in which said judgment of conviction was rendered, and a duly certified copy thereof, under the seal of the court, shall be forthwith transmitted to the warden of the Michigan State Prison, and the fees and expenses of said physicians and expenses of the prosecuting attorney shall, when approved by the circuit judge pronouncing such sentence, be paid from the general fund of the county in which the condemned person was convicted.

Section 14. If it appears by the sentence of such including the prosecuting attorney shall, the prosecuting attorney shall the first appears by the sentence of said physicians and expenses of the county in which the condemned

Section 14. If it appears by the report of said physicians that such woman is pregnant, a judge of the court in which such conviction was had and such sentence pronounced shall suspend the execution of the said sentence and shall transmit a copy of the report of said physicians and his order of guspension duly certified by the clerk, under the seal of the court, to the Governor and the warden of the Michigan State Prison. After said woman is delivered of child, or after the Governor from a report of three disinterested legally qualified physicians of the State of Michigan becomes satisfied that she is no longer pregnant, he shall forthwith issue a warrant appointing a time for her execution, and such execution shall take place at the time and in the manner provided by this act.

Section 15. Immediately after the execution, the body of the convict shall be examined by two physicians to be designated by the warden, one of whom shall be the prison physician, and said physicians shall make and execute a death certificate under their hand, which shall be attached to the return of the execution by the warden as provided in section twelve of this act.

Section 16. Section one of Chapter one hundred fifty-three of the Revised Statutes of eighteen hundred forty-six, being section sixteen thousand seven hundred eight of the Compiled Laws of nineteen hundred twenty-nine, is hereby repealed: Provided, however, That all proceedings pending and all rights and liabilities existing, acquired or incurred, at the time this act takes effect, are hereby saved, and such proceedings may be consummated under and according to the law in force at the time such proceedings are or were commenced. It is the legislative intent that this act shall not be construed to alter, affect or abate any pending prosecution, or prevent prosecution hereafter instituted under said section sixteen thousand seven hundred eight, Compiled Laws of nineteen hundred twenty-nine, for offenses committed prior to the effective date of this act; and all prosecutions pending at the effective date of this act, and all prosecutions instituted after the effective date of this act for offenses committed prior to the effective date of this act may be continued or instituted under and in accordance with the provisions of said section sixteen thousand seven hundred eight of the Compiled Laws of nineteen hundred twenty-nine.

Section 17. The provisions of act surpher one hundred equanty-five of the Public Acts of nineteen hundred twenty-nine.

Section 17. The provisions of act number one hundred seventy-five of the Public Acts of nineteen hundred twenty-seven, being sections seventeen thousand one hundred sixteen to seventeen thousand five hundred twelve, inclusive, of the Compiled Laws of ninteen hundred twenty-nine; insofar as the same are consistent with the provisions of this act, shall govern causes involving first degree murder.

Section 18. This act shall be known as and may be cited as "The Capital Punishment Act." Section 19. At the next April election to be held in this state, there shall be submitted to the electors thereof the question of the adoption of this act. All votes on the question shall be taken, counted and canvassed in the same manner as votes cast for the submission of proposed amendments to the State Constitution are taken, counted and canvassed. The vote upon the proposition of adopting this act shall be by ballot which shall be in substantially the following form:

## THE AMENDMENTS

The voters of Michigan will be confronted with three amendments to the state constitution when they go to vote next Monday. These are pub-lished on page 3 in this issue of the Avalanche in full. This will enable the voters to study them over before

The first one is "Authorizing State to improve or aid in the improve-ment of landing fields."

The second amendment would "Au-

thing he can for the good of the State of Michigan and the taxpayers: The Capital punishment amendment too has Gov. Brucker's endorsement. His experience with crime during his many years as a prosecuting attorney and as attorney general of Michigan should qualify him to judge whether or not such a law should be enacted. Vicious criminals today are at large in our land. Most m would not hesitate to take the life of anyone who may stand in the way of their criminal pursuits. While we see little of this in this vicinity of the state, still we cannot help but realize that something must done to lessen banditry and acketeering. Property and human lives are unsafe on the highways and private homes when the criminal is on the job. Enforcement officers everywhere seem to feel that more drastic punishment is need-

#### TOWNSHIP CANDIDATES

We also present a list of Grayling township candidates (See page 6). Space will not permit us to publish the tickets of other townships. However these already have appeared in this paper at an earlier date. Grayling voters may here study their ballot over and make their selections.

Space will not permit the publication of the state and county ballot On this there are four party tickets.

—Republican, Democratic, Socialists and Prohibition parties. The state candidates are for the office of members of the Supreme Court; regents of the University; superintendent of Public Instruction; member of state board of education and members of state board of agriculture. On the same ballot is the candidate for the office of county school commissioner.

WE HEAR a number of stories against some of the candidates for election, most of which, if honestly investigated, will be found to be un true. It doesn't pay to believe all the things told you at election time. In determining for whom to vote it is good sense to judge upon the merits of candidates from what one actually knows about them. Remember that almost any campaign worker is going to give you the rosy side of the story about his candidate. Just tell them, "Oh, yeah," and forget it and, when it comes time to vote, use common horse sense in marking the will be no cause for remorse have done our duty as we believed it should have been done.

DON'T FORGET that your neighbor though he differs from you political may be just as honest in his convictions as you, that this is a free country where freedom of opinion is che of the biggest of the broad foundction stones of our government, and there would be an end of that form of government without it. Be toler ant, therefore, or rather not tolerant but rational, patriotic and good na-tured. Stand by your convictions and let your neighbor stand by his if so d sposed. Keep cool. Argue politics if you will but do it calmly and reasonably, and bear this fact alcays in mind, that just as you have up your mind unalterably as to the way which you, are going to tote, ninety-one hundreths of the population has done the same thing.

#### INFANTILE BRUTALITY

The following supposed joke from the sport column of the Charlotte Republican, may be intended as some more of that paper's anti-capitalpunishment propaganda, but the writer is inclined to think it but a ase of poor proofreading:-

Pretty Secretary—"Your little girl wants to KILL you over the phone." Busy Employer—"Take the mes-sage, I'll get it from you later."

#### WATCH YOUR STEP

The same publication prints an excernt from a legislative letter by State Representative Miles M. Callaghan of Reed City, in explanation of the capital punishment law which is to be submitted to the qualified electors at the polls next Monday, and a partial paragraph from Mr. Callaghan's explanation is here

given:
"All discretion is taken from the who (the capijudge and jury as to WHO (the capitals are ours) shall be executed. The thorize the State to borrow money law is arbitrary. No extenuating and issue bonds therefor for circumstances—the GOOD CHARthe purpose of paying or refunding outstanding bonded indebtedness.

The third and last but not the rounding the COMMISSION OF THE CRIME (the capitals are ours) can be considered. Every citizen of Michoe considered. Every citizen of Michigan is put in the same class with the professional hired killer and gun-man and the judge and jury HAVE NO DISCRETION

With no other alternative cording to the views of the above gentleman) than facing a "discretion-less" judge and jury if this act becomes a law the writer would suggest that EVERY CITIZEN of Michigan, who is jealous of his GOOD CHARACTER, and who has a repugnance to being classed with PRO-FESSIONAL HIRED KILLERS and GUNMEN—should carefully "watch his step" and refrain from premeditated (or any other) killing of his brother man (or sister woman) and pose of which I cannot understand, there'll be no need to worry as the virtues of the hangman's noose or the electric chair in closing the which is in my office for the public which is not th career of THE MURDERER.

#### A GOOD JOKE SPOILED

The Space Filler thought he had the foundation for a good joke last Thursday evening as in passing Hanson's restaurant he spied one of the refreshment committee from the Board of Trade's banquet, seated at a front table and placing an order with Al. for some "eats"—(did look funny, didn't it)-but the truth was ladies at the Board of Trade's club rooms were so good and the numbe of guests so large that everything for those who served the feast.

## WHY GIVE HIM THE AIR

The dailies have been giving a lot of space to killer Burke who was arrested in St. Joseph, Missouri, and is being brought back to St. Joseph, Mich, to stand trial for killing a policeman, and the Detroit Sunday Free Press in speaking of Attorney General Voorhies participation in the trial, makes the following amusing statement:

"Mr Voorhies said that his offic would AIR Prosecutor W. M. Cunningham, of Berrien county, in the trial of Burke. . ."

## **BUS COMPETITION** HITS RAILROADS

Bankers Association President Asks If Unfair Aid Is Given Motorized Transport-For Rail Mergers.

NEW YORK.—Fair treatment for the railroads in respect to highway motor competition was called for by Rome C. Stephenson, President Amer address here. He also strongly endorsed "sound economic railway con-solidation" and praised President Hoover for his initiative in this respect.

that one of the measures which would help materially to put back business where it ought to be is the Eastern four-system plan of railroad consoli-dation as announced recently following negotiations instituted by President Hoover," said Mr. Stephenson.
"Its adoption by the Interstate Commerce Commission would tend to stabilize the transportation industry, facilitate operation and exert a favorable

"It is a fact well known to business leaders that our railroads are now fac alody of "Home, Sweet Home" now ing a crisis. Not only do they need protective laws to meet competitive situations arising from increased use of our highways and waterways by tion such as the proposed four-system plan provides. Our President has acted wisely in assuming a leadership citizen

The Johannesburg Mfg. Co. re- Mr. Stephenson declared that the e.vcd a large order for trunk slats railroads have served this country so pendence upon them and our obliga-tions to them. The past, present and future progress of the United States is fare. In neglecting just consideration for them we are even more neglectful of the public's best economic interests.

A Question of Public Interest "We are confronted with the question as to how much more the public economic interest will stand an inva sion of the welfare of the railroads by forces and difficulties not of their own creating and not within the scope of their own unaided powers to combat," said Mr. Stephenson. "I refer especially to new competitions that are undermining the hard-earned position of the railroads, not only with the aid of natural economic forces but also through the aid of government policies which, positively or negatively, tend to give these competitors undue advantages over the railroads.

"It goes without saying that the railroads have no right, nor claim any, so far as I have been able to discern, to complain at legitimate competition in the field of transportation, for the public is entitled to the best possible transportation at the lowest practical cost. But equally does it go without saying that this cannot be fairly brought about by using, or by failing to use, the tax-ing powers of government to enable competitive methods of transportation to do things they could not otherwise do as unaided private enterprises, particularly when such action impairs the invested rights held in good faith by great masses of our people in established enterprises that are serving the public well."

Mr. Stephenson said it was not his purpose to argue against such competitive transportation as the highway passenger motorbus and motor truck as such, when conducted under proper welfare and benefit. He declared, however, there is need for serious consideration whether such competition is being developed under conditions that are unfair to the railroads, because either the outright or obscure aid of nomic factor in that competition.

"They have simply taken possession of public highways built by public funds, both state and national, tinued, "and they have extensively made those highways vastly less com-fortable, less safe and less serviceable for private motorists and others who are contributing chiefly to their crea tion and maintenance.

Mr. Stephenson declared that all these matters should be thoroughly inquired into by competent public bodies, both state and national, with a view of determining the squities and basic public economic interests in volved, "particularly in respect to their effects upon the nation's railroads.
"I venture to say," he added, "that

such inquiries would show whether it is to the public interest to let things remain as they are, whether the situa tion calls for a new basis of motorbu and truck taxes to satisfy the equities of the case or whether it would call fo such drastic action as the exclusion of this traffic from our public general highways, and the requirement that, even as the railways, it provide as a part of its own private capital invest ment its own rights of way and for its wa maintenance of way out of operat-

Four bills affecting aviation have been introduced and will probably be ready for passage, subject to the vote of the people at the April 6 election on the question of state aid

Rep. Frank Brown of Bellevue has introduced a bill requiring registers of deeds to permit the use of photography in making copies of their

ecords and files.

The House has passed a bill authorizing the state to deed to the federal government certain lands for the construction of a seawall at Selfridge Field, near Mount Clemens.

Juries and witnesses in court would be protected from photogra-phers under a bill introduced by Rep. Armstrong of Detroit. The legislation is the outcome of experiences at the sensational trial of the alleged Buckley murderers in De-

Apportionment Tangle.

Just when it began to look as though a reapportionment law might be enacted, following the senate's 28 to 2 vote on the Harding bill, protests came from Detroit that its provisions were unfair and unconstitutional, halting the progress. Another proposal will be submitted by Rep. Bobt. Wardell of Detroit, attempting to give Detroit all of the four additional congressmen to which Michigan is entitled on the basis of its 1930 census. Senator Harding's original proposal was claimed to be unconstitutional because there was too great a discrepancy in the popula-tion of the congressional districts it is set up. The probability is that the legislature will tangle up on the division, blocking all legislation, in which event Michigan voters would elect four congressmen from the state at large in the 1932 election.

The legislative hearing of the Rubiner charges of paid legislators will likely be dropped, following an admission of the young assistant at-torney general that he had no legal proof to offer at the time he he speech.

Married women would be allowe to establish homes separate from their husbands, under a bill intro-duced by Rep. Cowan of Port Huron It was said this was to cover the case of Mrs. Miller, nee Bina M. West of Port Huron, national commit-tee woman from Michigan, and married to a Chicago man.

Rep. Pack of Ann Arbor has inroduced one bill to stop frats from louging taxes by deeding their property to their schools,

Affecting Motorists. Gov. Brucker and Secretary State Fitzgerald are understood to have agreed on the form of legislation for the changes in the driving icense provisions. The new bill provides for re-registration every three years, with new licenses to be issue

at a cost of \$1,00. New drivers must pass mental and physical tests: Revocation of the license is provided in case of conviction for drunk driv ing; involuntary manslaughter, or leaving the scene of an accident.

Tests would be made by local authorities and the application approved by the commissioner of public safety before the license could be granted by the secretary of state. A license appeal board will be provided, composed of the commissioner of public safety, secretary of state and

the attorney general. m. Green, Hillm ed a measure providing for drastic regulations and taxes on commercial vehicles, has submitted a compromise measure following receipt of a storm of protest. The new bill provides a tax of \$1.25 per hundred pounds of vehicle weight. The original measure would have provided a 200 per cent increase.

Insurance agents and representatives of stock companies have protested the bill proposed by Senator Rushton giving the State Insurance Department authority to regulate automobile insurance rates. Person and former state Senator Seth Pulver represented the mutual and reciprocal companies, contending that the stock companies, through lower rates in this state, were attempting to crowd the smaller companies out of the business.

Senator Campbell of Indian River has introduced a bill limiting a truck driver's employment to 16 hours in any 24-hour period. It provides also for the regulation of the use of

Curh State Board. The Senate has approved Rep Armstrong's bill, passed by the House, providing that the chairman of the finance committee, and an additional member from each house vote with the administrative board on emergency appropriations. A million dollars is appropriated for

Farm Board to Abandon Efforts to Stabilize Wheat Prices -Austro-German Customs Union Stirs Protests.

By EDWARD W. PICKARD

NO MORE attempts to stabilize the price of wheat by large purchases on the open market will be made under the auspices of the federal farm board after the 1930 crop is marketed, which probably will be done by May 31.
This was the aunouncement of the

Sam H. board, whose new chairman, James C. Stone, and new member, Sam H. Thompson of Illpois, have just taken office. In making its decision known, chases of large wheat stocks and asserted that "it cannot indefinitely buy more than it sells nor indefinitely hold what it has bought." Farmers must know, the board continued, that "!! cannot follow a regular policy of buy ing at prices above the market and selling below cost."

No definite sales policy for its pres-

ent big wheat holdings was announced by the board. There were indications, however, that should the farmers dis play a tendency to help themselves by restricting wheat acreage, the dis-posal of the 1930 crop holdings would be spread over a long period and

In the market the immediate effect of the announcement was of course a sharp break in prices. On the Chicago Board of Trade wheat deferred futures reached the lowest levels since 1895. July touched 5914 and Septem ber went down to 60 cents.

There was guick recovery, however, when the stabilization corporation announced this plan: Effective April 1, the corporation will quote a selling price of 8214 cents a husbel f. o. b. No 2 hard winter wheat at Chicago for ordinary quality, with prernlums asked for grain of high protein and quality. This price will be advanced ½ cent a bushel on April 10 and 1/2 cent a bushel every ten days thereafter until June 30, the date which marks the expiration of the current crop year.

In Washington it was asserted that it was now certain that farm relief legislation would be a major issue during the next session of congress. and something new in this line may be devised. Senator Borah is still urgently supporting the export debenture plan, and Senator Watson of Indiana prefers the equalization fee scheme. Senator McNary also likes the latter program but says be cannot see how it will help solve the present prob-lem in the face of the world wheat surplus. President Hoover is opposed to both these plans. Borah suggests that the present wheat surplus in this country be sent to China or destroyed. The European powers will not let it. be dumped on their markets.

MAYOR JIMMY Walker of New York has been given the opportunity to exand reply to amine and reply to the charges of misfeasance and negli-gence in office filed. against him. Gov. Franklin Roosevelt found himself in a difficult position when

asked to oust the mayor or refer the Mayor Walker matter to the state legislature for an inquiry, but he extricated himself by the simple expedient of forwarding the charges to Jimmy at his retreat in Palm Springs, Calif., and asking him to make answer when he returned to New York.

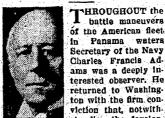

New York. However, the affairs of the metropre to be thoroughly investigated and Tammany may be approaching one of its emporary eclipses. The state senate, by the strictly party vote of 26 to 24, adopted a res an investigation by a legislative com-mittee consisting of three senators and four assemblymen, and after a protracted debate the assembly concurred with the senate, the vote being 76 to 70. The action of the senate was a surprise to the Democrats, for Mastick and Westall, the two Republican Westchester senators who formerly blocked such a resolution, suddenly shifted their votes and went along with their collegaues. Their change of mind occurred when William L. Ward, Westchester Republican leader, dropped his opposition to the inquiry following telephone conversations with prominent Republicans of New York city. The investigation is to include all departments of the municipal government and the inferior courts.

National importance is given this New York scandal by its possible ef-tect on the Democratic party's action n the national convention next year It may greatly promote the chances of Franklin Roosevelt for the presidential nomination, or it may ruin them. He would be favored by those parts of the country in which the Democrats are politically dry if he were freed from the Tammany brand, But Al Smith is said to be cold to his candidacy, and National Chairman Raskob is reported to be strongly in tavor of giving the nomination to Owen D. Young. Tammany itself is split into two factions, one headed by Mayor Walker and John F. Curry and

POR two years the Treasury depart ment - has been investigating charges that European safety match manufacturers were disposing of their products in this country at low prices to the injury of domestic producers. Evidently the charges were found to be true, for Secretary Mellon issued an anti-dumping order against the importation of safety matches from eight

cipated in or watched the maneuvers.

In reports filed at the Navy department, such officers as Admiral William V. Pratt, chief of naval operations: Rear Admiral Joseph B. Bristol, chairman of the executive committee of the navy general board, agree that without battleship strength the United States would be powerless to prevent a major hostile movement across the ocean directed at this coun-

GERMANY and Austria have anconsummate a customs union, and have caused great disturbances in the socalled "chancelleries of Europe." Great Britain, France, Italy and especially Czechoslovakia have protested against the move and according to report some of them have warned the two nations not to go ahead with their plan. The British position is that it is a violation of the protocol of 1922 in which the Lengue of Nations reorganized Austrian finances and Austria agreed to give equal tarial to all countries. The French, Italians and Czechs fear the proposed union is the first step toward the political union of German and Austria, which would violate the peace trenty. The Czechs are trying to bring the other countries of the little entente to their point of view, and the two Germanic nations have invited Czechoslovakia, Rumania and Jugoslavia to enter the economic com-

bination with them.

When the French, British and Italian ambassadors questioned Foreign Minister Curtius in Berlin, he replied in effect that Germany would nut the tariff union into effect, but he assured them that this in no way her, aided an eventual political unification with Austria. It was tolerably evident that Germany was willing to carry the natter to the world court at The

If they are persisted in a return to normal years or more. It is only through the development of the purchasing power of working people to the highest possi ble point that a market can be found for the goods which we are producing in an ever increasing volume.
"In the light of these facts the

American Rederation of Labor conceives it to be its duty to resist, with all the influence and nower at its command, any attempt on the part of employers to reduce wages. Furthermore it will be the policy of the American Federation of Labor to direct its efforts when favorable conditions permit, toward compelling those employduring this period of unemployment, to restore them."

NATIONALISTS of Porto Rico re-ceived no encouragement from President Hoover when he landed at San Juan and delivered his first address, which was made to the Island legislature. On the contrary, he dwelt on the innumerable benefits the island had derived from its rule by the United States, predicted fine things for its future, and pledged the support and ward continued Porto Rican prog-

er President Hoover would issue the call for the international silver conference which was given authorization by the last congress. Silver has been in a parlons state for many months. for, while production has not greatly increased, the sales by India on its return to the gold standard, and by other countries for the purpose of les sening the silver content of their coinages, have glutted the market. In

1926 its price was 62 cents an ounce, and it now sells for about half that. It was thought Mr. Norman might discuss the plan offered by Francis H. Brownell, chairman of the board of the American Smelting and Refining company. This scheme proposes that the United States, England including India. France including Indo-China and as many other governments as possible, arrive at a "gentleman" agreement" that "no sale will be made: for a stated period-say three years or until further notice-of any silver now or hereafter owned by each government, at less than some fixed price say, for example, 50 cents per ounce

Second-an understanding that those governments will purchase the amount of sliver they are now au-thorized by law to purchase for subsidiary coinage, whenever the price of allver in the open market is below the figure to be agreed upon as above (50 cents per ounce, for example).

"Taird-as compensation for agree ing . . . and to prevent too rapid a rise an understanding that the governments, and particularly India, may sell government owned silver whenever the price is more than, may, five cents above the figure agreed upon as above."

Our great ambition in life is to know as much as the average college student thinks he knows.
